Education

Indian Institute of Information Technology, Design and Manufacturing, Kurnool *Aug 2024 – July 2028*

B.Tech in Artificial Intelligence and Data Science *Kurnool*

Summary

Aspiring Machine Learning and Generative AI enthusiast pursuing B.Tech in Artificial Intelligence and Data Science. Proficient in Python, Data Science, and core Machine Learning concepts, with growing experience in building ML models and AI-driven applications. Passionate about leveraging Generative AI, LLMs, and advanced analytical techniques to create intelligent systems and solve real-world problems through innovation and creative problem-solving.

Experience

Infosys Springboard *Nov 2025 – Jan 2026*

AI Intern *Remote*

- Engineered an AI-powered Research Paper Review & Summarization Tool leveraging Python, Streamlit, NLP, and Generative AI to automate academic document analysis and insight extraction; independently built within a 20-member AI development cohort.
- GitHub: AI Powered Review System

IBM SkillsBuild *Dec 2025 – Jan 2026*

AI/ML Intern *Remote*

- Automated lecture note creation by constructing an AI system with speech-to-text, NLP summarization, and Generative AI; personally tested and optimized 5+ key system parameters for peak performance.
- GitHub: Lecture-Lens

Elevate Labs *Oct 2025 – Dec 2025*

AI/ML Intern *Remote*

- Engineered and deployed a production-ready Fraud Transaction Detection System via an interactive Streamlit interface, leveraging XGBoost for supervised classification and Local Outlier Factor for unsupervised anomaly detection to achieve high-precision fraud identification across imbalanced financial datasets.
- GitHub: SafeSwipe Repository Live App: SafeSwipe

Projects

Connect IQ — AI-Powered Networking System Jan 2026
∗ GitHub

Lecture-Lens — Lecture Voice-to-Notes Generator Jan 2026
∗ GitHub | Demo

Skill Drift Monitor — NLP-Based Skill Analysis System Dec 2025
∗ GitHub | Demo

SafeSwipe — Fraud Transaction Detection System Dec 2025
∗ GitHub | Demo

Campus Hustle — 2D Unity Game Oct 2025
∗ GitHub

Technical Skills

Languages: C, C++, C#, Python
Framework / Engine: Unity, Streamlit
Developer Tools: Git, GitHub, VS Code
Libraries: NumPy, pandas, Matplotlib, Seaborn, nltk, Scikit-Learn, Generative AI

Hackathons

Agentica 2.0 — IIIT Sricity *Mar 2026*

Team ByteBuilders *Offline - Grand Finale*

* Architected and led development of Civility.ai, an AI-driven content moderation platform for toxicity detection across text and media — trained a custom model from scratch using PyTorch and ViT (Visual Image Transformer), achieving 96.54% accuracy on a Kaggle dataset of 70,000+ samples.

Devfest 5.0 - BITS Goa *Jan 2026*

Team Void Walkers *Online*

* Architected Connect IQ — AI networking platform using LLM-based scoring to deliver intelligent professional matching and Opportunity Scores.
* GitHub: Repository

AIgnite 2.0 - GPREC *Jan 2026*

Team ApexVAMY *Offline - Grand Finale*

* Built a Generative AI chatbot using Gemini Flash including RAG that explains food delivery order workflows, clarifying placement, preparation, pickup, and delivery stages — reducing repetitive support queries and improving customer understanding.

Hackxios 2K25 — IIIT Bhopal *Dec 2025*

Team Core Cube *Online*

* Developed a Streamlit-based Skill Drift Detection System analyzing time-series NLP patterns across 100+ job postings and academic syllabi, implementing end-to-end NLP pipelines with temporal trend modeling to quantify curriculum-industry skill gaps and surface actionable workforce alignment insights.
* GitHub: Repository Live: Streamlit App

GDG Open Source Hackathon — IIITDM Kurnool *Oct 2025*

Team SpriteVRM *Online*

* Engineered a 2D Unity running game with smooth player movement, jump mechanics, collision handling, and dynamic obstacle & health systems; collaborated in a hackathon team leveraging GitHub for version control and seamless feature integration.
* GitHub: Repository

Courses & Certifications

Beginning C++ Programming – From Beginner to Beyond, *Udemy*

Master Git And GitHub In 5 Days, *Udemy*

Achievements & Extracurriculars

Agentica 2.0 Hackathon — Secured 6th Place out of 240+ teams. Demonstrated problem-solving, rapid prototyping, and collaborative teamwork in a high-pressure technical environment.

NSS Coordinator (Treasurer) — Managed financial planning, fund allocation, and budget tracking for community service programs. Ensured transparent utilization of resources across multiple initiatives.

Reading Club Coordinator — Organized events including National Library Week to promote student engagement in reading and literary activities. Drove participation through structured programming and outreach.

Languages

• English (Fluent) • Telugu (Fluent) • Hindi (Fluent)
